

AUTUMN IS THE YEAR'S LOVELIEST SMILE

New Life Academy of
Excellence
Where Educating is Our
Number One Goal

4th Grade Newsletter

October 8 - 12, 2018

Reminders:

- Please make sure that your child is picked up by **3:30** everyday.
- Please have your child **read for at least 30 minutes** every day!
- If you have not already joined Class Dojo, then please do so. Students should have received in their agenda the directions on how to join.

Reminder!

Date: October 19

Place: New Life Academy Multi-purpose Room

Time: 6:30 - 8:30 pm

Come join our 3rd annual International Night!

WHAT'S GOING ON?

Early release days for parent teacher conferences are **October 24 and 25**. All classes will have lunch at 10:30 am. Carpool will begin at 11:30 am. All students must be picked up by 12 pm.

Please be on the look for an email inviting you to sign up for a parent teacher conference with your homeroom teacher.

We'll Be So Busy!

Math - Students will continue to practice multiplying whole number of up to four digits by a one or two whole number using strategies based on place value and the properties of operations.

Social Studies - Students will learn about Chongqing's culture and will create a presentation about one aspect of Chongqing's culture based on their learning. Students should go on the class website and the Resources and Websites tab to review the different concepts and content taught in social studies.

Language Arts - Students will read fiction stories this week focusing on finding the theme, and identifying prefixes, suffixes, and root words. In grammar, students will continue to practice identifying and creating prepositional phrases. In writing students will continue to work on their mini-magazine. All students have selected a main topic so it would be helpful if they go to the library during the fall break to borrow informational texts they can bring to class as resources.

Science - Students will continue the unit on the water cycle. They will learn to illustrate pathways water may take during the water cycle. They will see how heat energy affects water. Students should understand water cycles on Earth, and the cycle does not necessarily have a beginning or an end.
