# Print, Cut, Staple and GO!

Included:

- Short summary of each type of weather
- Fill in the blank pages for class discussion
- Writing (predictions, opinion and summary)
- Weather tracker that helps students practice graphing skills
- Answer key for fill in the blank

# All About Our Weather

PRESENTED BY METEOROLOGIST \_\_\_\_\_

## FAVORITE WEATHER

My favorite type of weather is  
because \_\_\_\_\_

---

---

---

---

# WEATHER

The state of the air in a certain place and time.

My definition of weather:

---

---

---

---

---

The types of weather I know:

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_
4. \_\_\_\_\_

2

# WINTER WEATHER

My picture of WINTER weather:

Traits of winter weather:

1. It is very \_\_\_\_\_ and \_\_\_\_\_.
2. The USA is facing \_\_\_\_\_ the sun.
3. The days are \_\_\_\_\_ and the sun goes down \_\_\_\_\_.

10

# SUNNY

My picture of SUNNY  
weather:

During a sunny day, the sun is shining bright in the sky. There are few or no clouds in the sky. The sun provides warmth for our Earth. But just because it is sunny does not mean it is hot outside.

3

# SPRING WEATHER

My picture of SPRING  
weather:

Traits of spring weather:

1. It is very \_\_\_\_\_ and \_\_\_\_\_.
2. The Earth tilts \_\_\_\_\_ the sun.
3. The days become \_\_\_\_\_ and the weather gets \_\_\_\_\_.

11

# CLOUDY

On a cloudy day, the sky is filled with clouds that block the sun's light. It can be warm or cold on cloudy days. It can still be warm without the sunshine because the clouds are able to trap the Earth's heat.

My picture of CLOUDY weather:

4

# SUMMER WEATHER

My picture of SUMMER weather:

Traits of summer weather:

1. It is very \_\_\_\_\_ and \_\_\_\_\_.
2. The USA is facing \_\_\_\_\_ the sun.
3. The days are \_\_\_\_\_ and the sun goes down \_\_\_\_\_.

12

# WINDY

My picture of WINDY  
weather:

Windy weather happens when warm air moves up and cold air moves down to fill the space. Wind is also formed when air is pushed into smaller areas such as a tunnel or in between buildings.

# AUTUMN WEATHER

My picture of AUTUMN  
weather:

Traits of autumn weather:

1. It is very \_\_\_\_\_ and \_\_\_\_\_.
2. The Earth tilts \_\_\_\_\_ the sun.
3. The days become \_\_\_\_\_ and the weather gets \_\_\_\_\_.

# RAINY

Clouds sometimes create rainy weather. The rain is held in dark (or not white) clouds. Once the temperature starts to get colder, the clouds drop the water to Earth. This rain then helps our plants grow.

My picture of RAINY weather:

6

# WEATHER PREDICTION

I think that the most common weather we will see is \_\_\_\_\_ because \_\_\_\_\_.

I think that the least common weather we will see is \_\_\_\_\_ because \_\_\_\_\_.

# SNOWY

My picture of SNOWY  
weather:

Snow is formed just like rain but when the temperature is much colder. As the temperature drops, the water turns into snowflakes. Once heavy enough, the snow falls to the ground.

7

# WEATHER TRACKER

15

# STORMY

Storms are made up of rain, thunder and lightning. Lightning is formed when small bits of ice bump into each other in the storm cloud. All of the little bumps create an electrical charge that shoots to the ground.

My picture of STORMY weather:

8

# WEATHER REVIEW

The most common weather was \_\_\_\_\_.

I think we saw this weather the most because \_\_\_\_\_.

The least common weather was \_\_\_\_\_.

I think we did not see this weather a lot because \_\_\_\_\_.

16

# ANSWER KEY

## WINTER WEATHER

Traits of winter weather:

1. It is very cold and dark.  
(or other adjectives)
2. The USA is facing away from the sun.
3. The days are shorter and the sun goes down earlier.

## SPRING WEATHER

Traits of spring weather:

1. It is very cool and sunny. (or other adjectives)
2. The Earth tilts towards the sun.
3. The days become longer and the weather gets warmer.

## SUMMER WEATHER

Traits of summer weather:

1. It is very hot and dry.  
(or other adjectives)
2. The USA is facing towards the sun.
3. The days are longer and the sun goes down later.

## AUTUMN WEATHER

Traits of autumn weather:

1. It is very wet and cool.
2. The Earth tilts away from the sun.
3. The days become shorter and the weather gets colder.
