

Hello parents!

I miss seeing all your students in class, but I have loved seeing their work! This week, I am giving students three choices. They do not have to do all three, just choose one! This week, the theme is positivity. Many artists create work to share positivity with others. Students will create a project to spread positivity, or bring a smile to someone's face! Please have students watch my video of my explanation and then they can choose what they would like to do.

<https://www.youtube.com/watch?v=KOwPZewltr8>

Choice 1: Students can paint a rock either to keep for their family or to place somewhere in the community for others to see. If your student chooses this, please take a photo of where you placed the rock, whether at home in the family garden, in the neighborhood, etc.

Choice 2: Students may create a chalk mural. Make sure it is big and covers lots of space.

Choice 3: Students may create a positive drawing to make others smile! Once done, it can be hung somewhere for everyone to see, such as your family's refrigerator. Or, mail it to a friend or family member that needs a smile!
