

Hi Parents!

I have so enjoyed seeing your students' beautiful work during digital learning. They have been working so hard and I am so proud of them. Please continue to send me any missing assignments from past digital learning weeks. This week, I am not sending a new assignment. However, I will list some fun art activities below if students would like to complete one!

Make a drawing of someone you love.

Draw with two markers at once.

Create something with your eyes closed.

Paint on something that isn't paper.

Make art outside.

Draw or paint something. Then, cut it apart and make a collage out of it.

Make art with someone else.

Make your own paint from something in nature and try it out. (Dirt and water work really well for this, and also coffee or tea)

Make a sculpture out of aluminum foil.

Happy creating!

Miss Connor
